THE CHARLEROI MAIL

VOL XIX NO 137. CHARLEROI, WASHINGTON CO., WEDNESDAY, NOVEMBER 13,1918 TWO CENTS

END OF WAR WILL ALLOW MANY INDUSTRIES TO RESUME BUSINESS

Restrictions Already Being Lifted to Promote Normal Conditions

ROADS AND BUILDINGS AFFECTED

One of the first effects of the end of the war will be the resumption of industries whose business was curtailed, in order that war work might have the right of way. On Tuesday the War Industries Board announced a modification in the restrictions against non-war construction and manufacturing.

According to this announcement all industries whose peace time output has been curtailed in the interest of the nation's war program may now increase their output 50 per cent of the amount of restriction imposed by the board, while all restrictions are removed against the building of farm buildings, structures, roadways or plant facilities for railroads, railways and other public utilities and the construction maintenance, improvements or development by Federal or state authorities of highways, roads, boulevards, bridges, streets, parks, playgrounds and public utilities.

Forty-two specific industries are affected by this ruling, chief among them being the passenger automobile industry, which is now permitted to manufacture passenger cars in greater quantities.

In addition there will likely be a general resumption of building operations in every community throughout the United States, particularly next spring, as this industry was practically prohibited during the period of the war.

Another industry which can now proceed without further interference is road building of which this as well as other counties stand in great need. Locally it will affect work on the brick road out Maple creek, contracts for the repairs of which were held up by the War Industries Board because of lack of transportation feelities. It will be possible for the contractor, the Donora Construction Company, to get much needed material on the ground and go ahead with the work as fast as weather conditions will permit.

It is expected that before many days all industrial restrictions will be removed, thus allowing the country to get back to a peace basis, and allow the mills and factories to go ahead with orders for other character of work besides the war needs of the government. More than that, there is apt to be a general industrial expansion, which will mean the employment of labor on a large scale and at a wage scale which will undoubtedly be very satisfactory.

The change from a war to a peace basis will be gradual and it will take several months before the program the government has in mind is completed. The demoblization of the army will take several months and the men now serving the United States will be released in such a way as to fill up the ranks of labor in a gradual manner, thus preventing an over-supply which have a tendency to disorganize. In the meantime a great deal of government work already contracted for will be continued, thus keeping mills busy for the period of the winter on this charter of work, while at the same time arrangements will be under way to return to more peaceful pursuits.

OVERTIME AN SUNDAY WORK TO BE ELIMINATED

One of the immediate effects of the end of the war will be that overtime and Sunday work will be stopped on government war work. The readjustment of labor and industry of the country which has been engaged in war work will be undertaken in conference with the Department of Labor and the War Industries Board with a view to bringing about the readjustment with the least dislocation of labor and the greatest facility possible to be afforded for the re-establishment of industry.

MUST RETURN QUESTIONNAIRES

Those Now Out Must Be Sent Back to Selective Board

NO MORE CALLS FOR MEN

The draft board of the Fifth District with headquarters at Donora announced this morning that all questionnaires that have been mailed and which are now in the hands of registrants, must be filled out and returned to the Board. No other questionnaires will be mailed, however as the government has cancelled all calls for men to entrain for training camps

The local board received a telegram Tuesday morning from state headquarters, announcing that all entrainments were to be discontinued until further notice and the federal authorities have stated that no more men will be sent to camp. These orders bring to a close all activities so far as the selective service is concerned in sending men to training camps and will relieve quite a number of registrants, who were on the list to leave this week.

The first contingent of men, 22 in number left Charleroi on the 7th of September 1917. These men were assembled at the Hotel Wilbur and later entertained at the Elks Club, after a street demonstration had been held in their honor. It was quite an interesting occasion, these being the first men to be called under the selective service of the government. Ody Abbott of New Eagle was selected Captain and the contingent was sent to Camp Sherman. All men now in training camps will be retained for the present and it is likely that many of them will be sent to France for special duty, in order to relieve the men who were through the severe campaigns.

Councilman George W. Moody who is confined to his home with an attack of influenza, is reported as improving

Coal Prices May Be An Acute Question

Not the least interesting phase of the ending of the war will be the bituminous coal question, which has been quite acute throughout the country for the past two or more years. It is said that the signing of the peace armistice has caused an unsettled condition in coal affairs. In the bituminous trade it is said by some dealers that there is no fear of a shortage, but whether the price will go below the government schedule is what is causing operators and dealers some worry

According to J. T. Stoneroad, of the Carnegie Coal Company, outside of what is strictly the Pittsburg district there are signs of weakness in the prices of coal. The reason is that coal mined outside of the district, while bringing a higher price per ton than coal of the Pittsburg district, is inferior in quality and by reason of the closing of the Great Lakes trade on Saturday last there will be a large supply of Pittsburg district coal for domestic trade, not only in Pittsburg, but in coal fields in other sections of the county.

This will mean that coal from this district will have the call and which will have a tendency to stiffen the prices for the local product and at the same time keep all local mines in operation during the winter. No doubt the continuation of the wagon mines will be quite a problem next season if prices should go down as many of them are at considerable expense in hauling and loading coal by rail. It is possible however, that these business ventures may be able to continue on a very profitable basis.

HEALTH CONDITIONS ABOUT THE SAME

Health Officer Darby reported 23 new cases of influenza this morning with three to be heard from. However, it is not expected that the total number of new cases will go over 30.

The emergency hospital reports that 120 cases have been admitted to date. 36 discharged and 14 deaths. On Tuesday 14 new patients were admitted and four discharged. At the present time there are 69 cases remaining in the hospital and with the birth of a boy early this morning thetotal number is 70. Other cases are being taken in today.

MANY PACKAGES FOR SOLDIER BOYS

A large number of packages intended as Christmas gifts for the soldiers now on overseas duty are being assembled by the Charleroi Chapter of the American Red Cross at the office of Miss Minnie B. Richardson, prior to be being sent to France. The last day on which shipments can be made to New York, prior to the sailing of the vessel, is the 20th of November, before which time all packages must be in the hands of the local Chapter. Charleroi is going to send a handsome Christmas to her boys who are now in service in France.

The voluntary censorship which has been observed by newspapers, is now at end and the sailing of vessels may once more be announced.

NEWS CENSORSHIP WILL BE LIFTED

The ending of the war will mean that the news censorship which has prevailed for so many months will soon be lifted, and the people at home will be able to learn just at what point the boys are located in France. There is no necessity for keeping this information secret any longer, and the folk at home will be able to learn in what part of the fighting front the various units of the great American army are stationed. This will be quite a satisfaction to the people in this country, as heretofore they have been compelled to guess as to the location of a relative or friend. Much information will now come from overseas that has heretofore been held back because of the censorship.

Ivone Laganier.

Ivone, infant daughter of Mr. and Mrs Henry Laganier, died at the home of her parents, 307 Shady avenue, November 12 at 11 p. m., aged 6 years. Private funeral services will be held Thursday morning at 10 o'clock, with interment in Charleroi cemetery.

Costanzo Paolo.

Mrs. Costanzo Paola, wife of Pasquale Paola, died at her home. 940 McKean avenue, Nov. 12, at 11 p. m. Funeral Friday morning with interment in Calvary cemetery.

William B. Hotz.

William B., infant son of Mr. and Mrs Herman H.Hotz,died at the home of his parents. Maple creek on Tuesday. Funeral Thursday at 2 o'clock, with interment in Charleroi cemetery.

CHARLEROI HIGH WILL PLAY AT JOHNSTOWN ON SATURDAY NEXT

Locals Prepare to Meet with Strongest School Team In West

WILL TAKE 18 MEN ON TRIP

The Charleroi High School football team will go to Johnstown on Saturday next, where it will engage with the strong high school team of that city. The local team, 18 strong in charge of the coach, Dr. Stahlman, will leave Charleroi early Saturday morning in order to arrive in Johnstown in time to play the game.

Arrangements for the game were completed Tuesday evening with the local high school authorities, and after receiving assurances from the principal of the Johnstown High that the team would receive the finest of treatment the engagement was accepted and the team directed to prepare for the trip.

Johnstown High is one of the strongest High School teams west of the mountains and so far has a clean record for this season. Last Saturday it played Indiana Normal to a scoreless tie, while in previous games with Pittsburg High school teams it was a winner by a substantial score. It will thus be seen that Charleroi will have a strong proposition to face in this game, but the coach as well as players believe they will be able to give a good account of themselves.

It was possible to accept the game by reason of the fact that Duquesne University High, which was scheduled to play in Charleroi on Saturday next had disbanded for the season, owing to the quarantine against the influenza, consequently their management had to cancel the game.

According to the local schedule this leaves but two games to be played at home, on the 23rd with Monongahela and on Thanksgiving Day with the Donora team. Both of these contests are looked forward to with interest, as both of these schools have good teams this year and promise to give Charleroi strenuous battles.

If possible arrangements will be made with the Monessen High for a game some time before the end of the season. The regularly scheduled game with this team was cancelled on account of the quarantine, but it is expected that health conditions will be in better shape in a few days which will permit of a game between these two teams being scheduled.

HEALTH SITUATION WITH LOCAL BOARDS

Dr. B. Franklin Royer, acting state commissioner of health, Monday announced that any further influenza regulations were matters for local boards of health. This means that regulations in local communities will be up to local boards, which can retain or lift the quarantine, as they deem best under the circumstances.

There will be a new watch on the Rhine, and a great deal of it will be dressed in khaki.

BUGGY AND AUTO BOTH WRECKED

Auto Hits Buggy and Street Car Wrecks The Machine

HAPPENED NEAR FINLEYVILLE

After wrecking a buggy on the highway at Smithvale, just beyond Finleyville Tuesday evening some time after 5 o'clock, an automobile owned by Albert Erdelyi of 518 Seventh street, Donora, was in turn hit and wrecked by car No. 3613 of the Charleroi line at a short time after the first accident happened. The car crew, Motorman Lombard and Conductor Perch, did not learn how the first accident happened, but evidently after the auto had hit the buggy the auto was driven across the private right of way of the railways company and that point and allowed to stand on the tracks. It was in this position when a car No. 3613 came down the grade on the way from Pittsburg to Charleroi. As it was quite dark at the time, and as there were no lights on the auto the street car struck it broadside and piled into the ditch, which resulted in the machine being badly damaged. Erdelyi was not in the car at the time, neither was his companion, J. J. Strong, also from Donora. The buggy was in a badly dilapidated condition from being hit by the motor car, while the machine will require a great deal of repair to make it again serviceable.

OFFICER BRICKNER IS REPORTED VERY ILL

Officer Gus Brickner of the local police force, who has been quite ill with the influenza, was taken to the emergency hospital last night, and his condition today is reported as very critical. His wife, who is also a sufferer from the influenza, was taken to the emergency at an early hour this morning.

Card of Thanks.

We desire to thank our friends and neighbors for their sympathy and kindness and floral tributes in our time of sorrow in the death of our beloved daughter Agnes.

Mr. and Mrs William Feeney.

The Washington Avenue Presbyterian Missionary Society will meet at the church Thursday afternoon at 2:30 providing the ban on meetings 137-c1-p has been lifted at that time.

THIS BOY ENTERS HIGH AT AN EARLY AGE

Born—at 3:00 o'clock this morning at the emergency hospital, Charleroi High school building to Mr. and Mrs. John Kurtzler of 811 Washington avenue—a son; weight, nine pounds. According to the records this is the youngest person to matriculate at the local high since its organization.

THEIR ARMISTICE

The terms of the armistice imposed by the allies upon Germany are certainly severe They amount practically to an unconditional surrender. When they have been complied with, which will be within the next month Germany will have been rendered impotent of beginning any other hostile military movement, while the area of the once proud empire will be greatly reduced.

Had Germany fought the war like a civilized nation should have done, the terms would not have been so severe. The action of her armies, no doubt with the consent of the officers, were such as to withdraw all humane feelings any one may have had for the people of that nation, and now in the day of her downfall and degredation, there none to sympathize. The terms of the armistice were framed to fit an exceptional case, and Germany furnished the case. No such brutalities as executed by German soldiers have ever before been perpetrated. Even the savage Indians of America did not treat people under their jurisdiction in the same manner as the Germans treated the French and Belgians who came within their power.

When the German mind comprehends the full maning of the terms set forth in the armistice they will realize that military force, no matter how well trained, nor how well fortified, is invincible. No nation has ever yet been able to conquer the world, and Germany and her allies have failed most miserably in their undertakings. Today there is none to respect them; they are looked upon as enemies of civilization and are being treated as such. After over four years of warfare, in which millions of lives have been lost, and billions been destroyed, the Germans have of dollars worth of property have been finally brought to a realization that their efforts were all in vain, and that in the end they will have to pay for all their atrocities. The debt is a huge one but it must be liquidated.

A DANGEROUS SITUATION

In Germany, now that the Kaiser has abdicated and the governments in most of the states having been overthrown, the soldiers' and workers' council, so called, have taken up the work or reorganizing affairs and are endeavoring to establish and maintain something like order in that country at the present time. Just what success they will have in this undertaking is a matter of conjecture but their efforts will be watched with the most intense interest by the allied nations. A treaty of peace will have to be executed with Germany and a responsible government must be a party to it. Just who or what the government will be is a question for the future to determine.

With the destruction of the German military and naval power, it may be a duty for the allies to send troops into portions of Germany to maintain order and to furnish the necessary police protection for any new and responsible government to become firmly established. Conditions in Germany today are somewhat similar to those which followed the collapse of the Russian empire, although the new government in Germany is in more capable hands. At the same time the sudden change from autocracy to democracy is apt to cause a great deal of confusion, out of which might arise a condition which would compel the allied powers to intervene.

The situation of Germany is going to be interesting to watch and at the same time it is possible for a [illegible] of troops to be called [illegible] maintaining order [illegible] an autocratically ruled nation.

PAYING IT BACK.

One of the stipulations of the armistice, and to which the Germans agreed, was the one which provides for restitution for damage, the return of the cash taken from the National Bank of Belgium and the return of gold taken from Russia and Roumania.

When the Germans begin to pay back the immense sums of money taken from the people of those countries which they exploited as well as paying for the damage done by their armies, they will need all the fortitude they possess. It is going to be an immense task, one that will keep the Germans busy for many years, but it is proper that it should be imposed. When the Germans had the power it took millions of dollars every month from Belgium, not because the Huns were entitled to it but because they believed it might rather than right. They took the money just like a robber would take goods from a house, not because he was entitled to it but because he was in a position to take it. Now it must all be paid back, and on top of these immense sums will come the price of restoring the devastated lands over which the Hun passed. It is going to be an awful bitter lesson for the Germans, but they largely brought it on themselves.

ADIEU TO BILL

Composed from an extract from the Kaiser's address to his Eastern Army December 1914.

I am the sword of God
Was the Kaiser's boast
An instrument in his hands
To lead his Mighty hosts.

He has decreed my people
My demands you will observe
That no one sheath his sword
Until all nations do me serve.

Misery and death unto those
Who oppose my will
For God commands from on high
That I my foes must kill

His spirit has descended
On me your Lord and King
And thru me he has spoken
The glad tidings I do bring

That you go forth to battle
My promise to fulfil
And me and God, in you
Will Victory instill

Go with your shining sword
And other means employ
Slay right and left let none escape
For that will give me joy.

Stop! William your mistaken
All God's laws you broke
You have deceived your people
Henceforth your crown's a yoke.

Now William you must suffer
For the wrongs you have done
For the widows and the orphans
And the blood you caused to run

For God has not ordained you
All nations for to rule
For he has backed the allies
While the Devil was backing you

And now your day is over
Back to the mines for you
While we thank God for peace
And to you we bid Adieu.

"Der Tag' is not what the officers of the German army and navy expected it to be. It finds the Kaiser a fugitive, mostof the rulers of the German states out of office and the German empire practically a wreck. These are conditions the boasters certainly did not expect.

No doubt the Germans have a higher regard now for the American boys as fighters than he ever had before. The boys from the states, after starting on Jerry's trail in July never let up until the armistice was signed.

If the citizens of the former German empire are under the belief that they will escape the responsibility for their acts in the great war, by breaking up into smaller governments they are going to be badly disappointed. All of the territory embraced in the country over which Kaiser Wilhelm reigned must share of the burden to be imposed. There will be no chance to escape from the penalty.

No wonder Kaiser Bill left the German empire after looking over the terms of the armistice. What could he say to his former subjects if he had signed that document or after allowing his representatives to accept it? He wanted to be in some neutral territory where his personal safety could be assured at least for a time.

Germany must give up all the country west of the Rhine. Also Alsace and Lorraine, and all those portions of France and Belgium which it occupied at the time the armistice was signed. More than that he must retire with his armies to quite a distance beyond the Rhine. No wonder the Kaiser ran away.

From Chateau—Thierry to the present front line of the allied armies along the western battlefront is one hundred and eighteen days. And it was at Chateau-Thierry that the Americans began the real finish of the Hun.

Some years ago, when William dismissed Bismarck to leave the German cabinet, newspapers published a cartoon under the caption, "Dropping the pilot." In view of what has taken place the past few days that cartoon was prophetic.

Mrs. A. Vogel of Pittsburgh Tells How Ten-Herbs Restored Her Health

"An attack of indigestion or dyspepsia are in themselves the simplest ailments imaginable," said the Ten-Herbs Man, "but if the latter were not so they would be found to be even more dangerous than some of the most terrible fevers. That may be startling, but they are a never-failing sign that the stomach is not performing its proper functions.

"When the stomach is not properly digesting the food, there is no limit to the way affections can spread to every organ of the body, producing intestinal poisoning, rheumatism, liver and kidney trouble and many other distressing ailments.

"Ten-Herbs, the famous herbal stomach remedy is invaluable in aiding such cases. It acts almost like a miracle, purifies the blood, causes the food to digest perfectly and puts the entire system in a strong, healthy condition and we are daily in receipt of signed statements from well known local people verifying his contention.

"Only the other day Mrs. A. Vogel a popular Pittsburg lady, residing at No. 106 Holzer street, gave the following:

"I have had trouble with my stomach for the past three years, was bloated with gas, could not digest my food, had headaches and was so nervous I could not sleep; my back pained me terribly and I got in a badly run-down condition. I would have awful distress after eating any food. Since I have taken Ten-Herbs I am feeling fine, sleep well and am able to eat my meals and digest them I feel stronger and better in every way."

Ten-Herbs is sold in Charleroi at Henning's Drug Store.

STOMACH TROUBLES VANISH

Go Like Magic With New Treatment

Druggists everywhere are hearing of the many cases of stomach troubles and biliousness that have been cured for good with "Ba-Ha-Ni" the marvelous twentieth century regulator. People who formerly took salts and oil to relieve constipation and sick headache now know what it is to have regular bowels and be free from the use of dreaded, harsh physics and purgatives. These agents only leave you in the same or even worse condition after the effect has passed off, but "Ba-Ha-Ni" not only starts the digestive organs and bowels to working property but keeps them in their normal condition, enriches the blood and purifies the entire system!

What a pleasure to sit down and eat a hearty meal composed of your favorite dishes without any fear of mean attacks and dizziness and sick headache the next morning—how gratifying to know that the food will pass off without the use of disagreeable physics to take it away! Start this very evening to take this wonderful treatment of "Ba-Ha-Ni" (pronounced baw-haw-nee) don't rob yourself of the relief it will bring you, buy a 25c or 50c box and in a remarkably short time you will find yourself free from all the ailments that are bound to accompany auto-intoxication or constipation.

Know the joys of good digestion, regular bowels and rich, red blood! It is the easiest thing in the world to have all these by letting "Ba-Ha-Ni" regulate you and tone your system so "be a regular fellow!"

ENGINEERS WILL INSPECT ROADS

Engineers of the State Highway Department will make their annual inspection of state highways next week, and will make tours covering about 600 miles. The inspection will cover some of the sections of the Lincoln highway on which repair and maintenance forces have been concentrated because of the heavy movements of Army trucks and the new construction which is under way in various sections to facilitate movement of war material.

Arrangements have been made for construction of snow fences along the lines of the Lincoln and main traveled highways where needed. It has been found under present conditions to be cheaper to build such fences than to pay men to shovel the snow.

RIVERMEN TOOK PART IN CELEBRATIO

The spirit of jollification which prevailed all over the country on Monday affected navigation circles on the local rivers. Captains knocked off early and tied their boats up at some convenient town, where the crew took part in the celebrations which were being held by the citizens. The rivermen are just as patriotic as all others and during the period of the war have been doing splendid service in keeping mill and factories supplied with coal. Even under very trying conditions last winter they were always on the job and managed to make a good record every month, with the exception of January when the river was closed by ice. They were entitled to a day of jollification.

"FLU" CONDITIONS IMPROVE IN MONESSEN

Influenza conditions have materially improved in Monessen during the past few days, the number of new cases reported being much smaller than those turned in last week, while the number of cases at the emergency hospital are constantly decreasing. It is the general opinion that the peak of the malady has passed this section of the valley and that normal conditions will obtain within a short time.

PERMIT IS GIVEN TO COAL COMPANY

The Philadelphia & Cleveland Coal company has been graned a permit by the Federal government to construct a coal loading dock and drive piling on the left bank of the Monongahela river opposite Belle Vernon and about 200 feet above the river bridge. This company also received a permit a short time ago to erect a coal tipple in the third pool a short distancse above the mouth of Mingo creek.

Joseph T. McCann, with the Aviation Supply Depot, stationed at Los Angeles, Cal., spent Sunday with Mr. and Mrs. Joseph Godissart, formerly of Charleroi, but now living in that Pacific coast city.

"BEST MEDICINE FOR WOMEN"

What Lydia E. Pinkham's Vegetable Compound Did For Ohio Woman.

Portsmouth, Ohio.—"I suffered from irregular pains in my side and was so weak at times I could hardly get around to do my work, and as I had four in my family and three boarders it made it very hard for me. Lydia E. Pinkham's Vegetable Compound was recommended to me. I took it and it has restored my health. It is certainly the best medicine for woman's ailments I ever saw."—Mrs. SARA SHAW, R. No. 1, Portsmouth, Ohio.

Mrs. Shaw proved the merit of this medicine and wrote this letter in order that other suffering women may find relief as she did.

Women who are suffering as she was should not drag along from day to day without giving this famous root and herb remedy, Lydia E. Pinkham's Vegetable Compound, a trial. For special advice in regard to such ailments write to Lydia E. Pinkham Medicine Co., Lynn, Mass. The result of its forty years experience is at your service.

By the terms of the armistice the Germans are required to surrender five thousand guns, (2,500 heavy and 2,500 field.) When the United States gets its share of that number it can dispose of them by sending them to communities represented in the war to serve as mementos of the great conflict in which American boys took part.

BACK GIVES OUT

Plenty of Charleroi Readers Have This Experience.

You tax the kidneys—overwork them—

They can't keep up the continual strain.

The back may give out—it may ache and pain;

Urinary troubles may set in.

Don't wait longer—take Doan's Kidney Pills.

Residents of this vicinity endorse them.

Can Charleroi people doubt the following evidence?

W. A. Bechtel, pattern maker, 120 Thompson Avenue, Donora, Pa., says: "I suffered from dull pains across my back. Whenever I stooped over and then tried to straighten up, a sudden twinge caught me. The secretions from my kidneys were too frequent and disturbed my rest at night; I often had to get up two or three times. Doan's Kidney Pills, however brought me fine relief."

Price 60c at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Bechtel had. Foster-Milburn Co., Props., Buffalo, N. Y. 47

Fagged Out Women Vinol is What You Need

If all the tired, overworked, run-down women in this community could realize how our delicious Vinol, which contains Beef and Cod Liver Peptones, Iron and Manganese Peptonates and Glycerophosphates supplies the vital elements necessary to enrich the blood and create working strength, we wouldn't be able to supply the demand.

Dukedom, Tenn.

"I live on a farm and keep house for six in my family. I got into a nervous, run-down condition so it seemed as though I would die. A friend advised me to try Vinol. I have been greatly improved by its use and am better and stronger in every way."—Mrs. H. H. Goodwin

Burdett, N. Y.

"I keep house for my family of three, and raise chickens. I had a nervous breakdown, so I was unable to work. The doctor did not seem to help me, and a cousin asked me to try Vinol. It built me up—I now have a good appetite and am well and strong."—Mrs. Loyal Palmer.

For all run-down, nervous, anaemic conditions, weak women, overworked men, feeble old people and delicate children, there is no remedy like Vinol.
